

Lightroom

Stacking Photos

- It allows you to group similar photos
- It will help in reducing the number of photos you see in your grid
- Select all the photos you want to Stack
 - Photo Menu -> Stacking -> Group into a Stack
 - Once Stacked, it will show a badge on left side of stacked group with the number of photos in the Stack
 - To expand the Stack so all photos are showing, just click on the number or bar (left side of Stacked Photos)
 - To close the Stack, to the above again
- This is a good idea for HDR Photos and/or Pano Photos
- Can change the Stack Photo Cover Photo
 - Photo Menu -> Stacking -> Move to Top of Stack

Shortcuts

- Group into Stack - Ctrl - G
- Move to Top of Stack - Shift - S
